

SSI and NRI Setup

Overview:

Use this job aid as a step-by-step guide for SSI and NRI item setup.

1. Access the SSI/NRI setup screen through the Product Assortment menu.

2. Click on the Item Setup icon to begin item setup.

A screenshot of the 'Item Setup' screen. A red arrow points to the 'Item Setup' button. Below the button is a table with columns: UPC, Item Description, and Vendor. The table contains several rows of item data.

UPC	Item Description	Vendor
0002429111603	12 Tongs	
00739205720757	3D Cardboard Puzzle	Z-EDI
00818850020006	3D Mask	Z-EDI
00052548590697	7-S Creme Brulee	Z-EDI
00052548605155	7-S Gallon Freezer	Z-EDI
00052548575496	7-S Toilet Bowl Cleaner	Z-EDI
00052548633585	7S Apple Juice 8pk	Z-EDI
00052548633592	7S Fruit Punch 8pk	Z-EDI
00896843002840	AFJ Abducted Cow	Z-EDI

3. Enter the UPC for the product to initiate the setup process.

A screenshot of the 'Item Setup' form. A red arrow points to the 'UPC *Required' field. The form includes fields for Item Description, Vendor, Item Type, Department, PSA, Category, Subcategory, Item Cost, and Single Size Deposit. Below these fields is a table with columns: DSU, UPC, Size Description, Size Multiple, Retail Price \$, LDU, Extended Retail \$, Purchase Margin %, Markup/Markdown \$, Retail Size, and Retail Unit Of Measure. The table is currently empty, and a message 'No data to display' is shown below it.

UPC *Required: Enter UPC Number

SSI and NRI Setup

It is important to track the status of your SSI request in the Non-Recommended Item Maintenance/Item Setup Screen. If your request is rejected, a reason code will be provided for your reference and investigation. This can be displayed for each item by hovering over the blue "Information" icon in the "Rejection Reason" column. Common reasons for SSI rejections are "Invalid UPC," "UPC not in DSD Catalog," and "Set Size Group to Correct Multipack Selection." NOTE: NRI's do not require approval in the system.

Product Assortment > Non Recommended Item Maintenance/Item Setup											
Item Setup											Actions
	UPC	Item Description	Vendor	SSI Request Date	Rejection Reason	Alert Received Date	Vendor Change to Z-EDI	SSI Approval Date			
☐	00850015885549	HopValleyTripleDbI Pack	MALETIS BEVERAGE OR	04/06/2023							
☐	00850015885549	HopValleyTripleDbI 6pk	MALETIS BEVERAGE OR	04/06/2023							
☐	00763176192190	Symph Chronic 19.2oz	MALETIS BEVERAGE OR	04/26/2023							
☐	00850017944343	2TownTopClCosmicCrsp Pack	COLUMBIA - OREGON	05/04/2023							

In the example below, the rejection reason for the item is "UPC not is DSD Catalog."

A rejected item cannot be setup as an SSI unless it is modified and resubmitted. Otherwise the items will need to be set up as an NRI. Stores can take the following actions:

1. To set up the rejected item as an NRI, the store will need to set the vendor field to "Z-EDI."
2. Resubmit the SSI request after taking action in correcting the rejection code.

Product Assortment > Non Recommended Item Maintenance/Item Setup

This SSI request is approved but Pending Completion due to exceptions. Please click on Edit icon to resolve exception.

SSI and NRI Setup

Rejection Reason	Explanation	Resolution
Manual Entry	Manually entered reason used to communicate a specific action identified to result in a confirmed SSI.	Varies based on message entered.
UPC not in DSD catalog (set vendor as Z- EDI)	The requested UPC is not included in the requested DSD vendor's catalog on file. Item needs to be set up as NRI (set vendor as Z-EDI).	To set vendor as NRI: Click on the item UPC hyperlink in the Item Maintenance screen. Select Z-EDI from the Vendor drop-down menu, click "Done." If you have confirmed that the UPC was entered correctly and the item is re-orderable from DSD vendor: then submit 7HELP case (SSI form) with your store number, requested UPC, short description, and description (include DSD vendor name).
UPC not in wholesaler catalog (set vendor as Z- EDI)	The requested UPC is not re-orderable from the wholesaler that supports your store. Item needs to be set up as NRI (set vendor as Z-EDI). Products such as tradeshow items or displays, promotional cups/straws, and non-saleable inner pack units cannot be re-ordered as SSIs. In order to sell through these items, they should be set up as NRIs (set vendor as Z-EDI).	To set vendor as NRI: Click on the item UPC hyperlink in the Item Maintenance screen. Select Z-EDI from the Vendor drop-down menu, click "Done." If you have confirmed that the UPC was entered correctly and the item is re-orderable from your wholesaler: then submit 7HELP case (SSI form) with your store number, requested UPC, short description, and description (include wholesaler name).
Set Size Group to correct multipack selection	The incorrect size group was selected when submitting a request for a product packaged for multi-pack retail sale. Single was selected rather than multi-pack, or multi-pack was selected rather than single.	To set Size Group to correct multipack selection: Click on the item UPC hyperlink in the Item Maintenance screen. Select "Yes" to identify the item as multipack, select the correct value from the Size Multiple pop-up window that matches the UPC, and click "Done".
Ineligible item for vendor (set vendor as Z- EDI)	The requested vendor is not currently configured to deliver this type of product to stores. Item needs to be set up as NRI (set vendor as Z-EDI).	To set vendor as NRI: Click on the item UPC hyperlink in the Item Maintenance screen. Select Z-EDI from the Vendor drop-down menu, click "Done."

SSI and NRI Setup

Future Recommended Item (set vendor as Z-EDI)	The requested product is currently included or is pending registration as a recommended item in your store's pattern. Item needs to be set up as NRI (set vendor as Z-EDI).	To set vendor as NRI: Click on the item UPC hyperlink in the Item Maintenance screen. Select Z-EDI from the Vendor drop-down menu, click "Done."
Set vendor as Vendor Name	The requested UPC has already been activated in the system for a different recommended vendor. A UPC can only be supplied by one recommended vendor.	To modify vendor: Click on the item UPC hyperlink in the Item Maintenance screen. Select the appropriate vendor from the Vendor dropdown menu, click "Done."
Pre-Book/Holiday item (set vendor as Z-EDI)	Prebooks and holiday items cannot be re-ordered as SSIs. In order to sell through these items, they should be set up as NRIs (set Vendor as Z-EDI).	To set vendor as NRI: Click on the item UPC hyperlink in the Item Maintenance screen. Select Z-EDI from the Vendor drop-down menu, click "Done."
Discontinued item (set vendor as Z-EDI)	The requested product was deleted from the recommended assortment because it was discontinued by the vendor. This item is no longer available from the vendor. Item needs to be set up as NRI (set vendor as Z-EDI).	To set vendor as NRI: Click on the item UPC hyperlink in the Item Maintenance screen. Select Z-EDI from the Vendor drop-down menu, click "Done."
Recalled item (delete the record)	The requested product was recalled by the manufacturer. Please delete the item, and please remove any inventory from your shelves.	To Delete the Item: Click on the item UPC hyperlink in the Item Maintenance screen. Click on the Actions drop-down in the upper right corner of the screen and select "Delete this item." Then click "Done."
Proprietary/Fresh item (set vendor as Z-EDI)	Fresh items and Proprietary items (e.g. branded cups and straws), freeze and thaw fresh foods, and bulk condiments are not eligible for SSI set up. Item needs to be set up as NRI (set vendor as Z-EDI).	To set vendor as NRI: Click on the item UPC hyperlink in the Item Maintenance screen. Select Z-EDI from the Vendor drop-down menu, click "Done."

SSI and NRI Setup

Restricted/Prohibited Item (delete the record)	Your store has been evaluated as being prohibited from selling this type of product, for example due to possible local jurisdictional restrictions. For more information, please reach out to your Area Leader or Market Leader. Please delete the item, and please remove any inventory from your shelves.	To Delete the Item: Click on the item UPC hyperlink in the Item Maintenance screen. Click on the Actions drop-down in the upper right corner of the screen and select "Delete this item." Then click "Done."
13 COGS item (set Item Type to Cost of Good)	The requested UPC has already been activated in the system as a Cost of Goods item. Change the item type to "Cost of Good Item".	To set up as a Cost of Goods Item: Click on the item UPC hyperlink in the Item Maintenance screen. Click on the "Item Type" drop-down and select "Cost of Goods." Then click "Done."
14 Invalid UPC (set UPC to valid 14-digit code)	The requested UPC contains non-numeric characters or is less than 14 digits. Delete the item and redo item setup with appropriate UPC.	To Delete the Item: Click on the item UPC hyperlink in the Item Maintenance screen. Click on the Actions drop-down in the upper right corner of the screen and select "Delete this item." Then click "Done."

Definitions

NRI	• Non-Recommended Item (NRI). • NRI's are items that are not electronically orderable from any vendor. • NRIs can be used for customizing your product assortment and selling through poor selling Recommended Items (RIs) or SSIs that are being removed from the store's assortment. • If you do not want to reorder the item or cannot reorder through a recommended vendor, set up the item as NRI.
SSI	• Store Supported Item (SSI). • SSI is a <u>non-recommended item</u> from a <u>recommended vendor</u>. • Request SSIs for items you plan to reorder and include in your on-going permanent product assortment (do not include pre-books, trade show items, and deleted items). • Exceptions include proprietary, fresh food, and in-and-out items. Proprietary and fresh food items require additional approvals to be added to stores product assortment. • Key benefit: SSIs receive full system support that RIs receive.
