STORY

Truth was our hoppy first step into the craft beer cosmos back in 2013, an unproven homebrew recipe that we really dug. A nod to West Coast Style IPAs, Truth's tropical fruit-forward flavor profile and smack-your-lips dry finish quickly won a passionate following, putting smiles on beer lovers' faces in Cincinnati and beyond. We named this beer Truth because, frankly, the world didn't need another IPA. Through the noise, we present an authentically delicious beer, no strings attached. Available year-round.
