

REMARKABLE. PARTAKABLE.

VANILLA PORTER

The Vanilla Porter recipe was developed at our brewpub in Breckenridge, and it quickly became a local favorite. At the urging of many who'd tried it, we brewed more and more, making Vanilla Porter one of our most widely-distributed year-round offerings.

We start with a solid porter recipe that includes a selection of key malts that provide flavors of chocolate, roasted nut, caramel, and coffee. We then add vanilla imported from Papua New Guinea and Madagascar. The pairing of roasted malts and vanilla creates a uniquely delicious flavor combination.
